

BAGAS SETYAWAN

bagassetyawan398@gmail.com | (+62) 895-3683-93295 | [Portofolio](#) | Semarang, Indonesia

Lulusan S1 Teknik Elektro konsentrasi Kendali dan Instrumentasi dengan pemahaman pada sistem kelistrikan, pembacaan wiring diagram kelistrikan, serta pemeliharaan peralatan. Memiliki pengalaman magang di bidang inspeksi instalasi kelistrikan, pesawat angkat-angkut, dan pesawat tenaga produksi. Terbiasa bekerja secara sistematis, teliti, dan mampu bekerja dalam tim dengan baik. Memiliki minat bidang Energi Baru dan Terbarukan (EBT), sistem kontrol dan teknologi sistem monitoring

KOMPETENSI KEAHLIAN

- Dasar Instrumentasi dan Monitoring Sistem
- Dasar PLC (Programmable Logic Controller)
- Instalasi dan Pengkabelan Listrik
- Inspeksi K3 (Keselamatan dan Kesehatan Kerja)
- Penyolderan dan Perakitan Komponen Elektronik
- Troubleshooting Dasar Sistem Kelistrikan

SERTIFIKASI & PELATIHAN

- **Pelatihan PLC** – Universitas Semarang | [Sertifikat](#) **2026**
- **Pelatihan AutoCAD** – Universitas Semarang | [Sertifikat](#) **2026**
- **TOEFL (Diagnostic Test)** – Universitas Semarang | [Sertifikat](#) **2026**

PENGALAMAN KERJA

Asisten Ahli K3 (Magang) | PT Jasa Teknik Indonesia Januari 2025 - Juni 2025

- Mengikuti 7 kegiatan inspeksi dan riksa uji selama masa magang seperti instalasi listrik, penangkal petir, PTP, PAA, serta Fire Alarm guna memastikan kelayakan operasional dan kepatuhan terhadap standar K3.
- Mengidentifikasi potensi bahaya serta memastikan penerapan prosedur keselamatan kerja di area operasional.
- Menyusun laporan hasil pemeriksaan dan pengujian (riksa uji) secara tepat dan sistematis.

PENDIDIKAN

Universitas Semarang 2022 - 2026

Sarjana Teknik Elektro | IPK : 3.75 / 4.00 [Ijazah & Transkrip Akademik](#)

- **Tugas Akhir** (Rancang Bangun Sistem *Monitoring* Terpadu Energi PLTS *Off-grid* pada Prototipe *Smart Greenhouse*).
- **Mata Kuliah Relevan** : Otomasi, Kontrol Logika Fuzzy, Scada, Aplikasi Mikrokontroler, Pemodelan & Simulasi Sistem, Sistem Energi Baru dan Terbarukan, K3 dan Lingkungan Hidup (K3LH).

PENGALAMAN KEPANITIAAN

Liaison Officer | Kontes Robot Indonesia Tingkat Wilayah 1 & 2 - Nasional 2023

- Membantu dewan juri dalam melakukan penilaian untuk peserta kontes robot.
- Mengelola hasil dari penilaian serta memberikan arahan kepada peserta kontes robot.
- Berkontribusi dalam kelancaran alur penilaian dari divisi KRTMI untuk peserta robot.

Panitia | International *Technology Engineering and Computing Application* 2023

- Mengoordinasikan setiap peserta dalam melakukan pemaparan hasil penelitian.
- Membuat *run down* untuk pelaksanaan pemaparan hasil penelitian.
- Memastikan pelaksanaan acara berjalan lancar sesuai jadwal yang sudah ditentukan.

KETERAMPILAN

Hard Skills

- Microsoft Office (Ms. Word, Ms. Excel, Ms. Power point),
- Dasar AutoCAD, CX-Programmer, Arduino IDE, KiCad, Google Sheets, Canva, Anaconda Navigator, dan Eagle

Soft Skills

- Pemecahan Masalah, Kerja Tim, Komunikasi, Manajemen Waktu, Kepemimpinan

Bahasa

- Indonesia (Native) Inggris (*Basic Working Proficiency*)

MOH AFRIAN DWI MAHENDRA

afrianmahendra36@gmail.com | [\(+62\) 89520329802](tel:+6289520329802) | [Portofolio](#) | Semarang, Indonesia

Lulusan S1 Teknik Elektro dengan konsentrasi Elektro Arus Kuat yang memiliki pemahaman pada sistem tenaga listrik, pembacaan diagram listrik, serta monitoring dan pemeliharaan peralatan. Memiliki pengalaman magang di bidang inspeksi, pemeliharaan peralatan, dan pemantauan sistem kelistrikan. Terbiasa bekerja teliti, sistematis, serta mampu bekerja dalam tim. Memiliki minat pada bidang Energi Baru Terbarukan (EBT), sistem tenaga listrik, serta pengembangan teknologi kelistrikan.

KOMPETENSI KEAHLIAN

- Dasar Instrumentasi dan Monitoring Sistem
- Dasar PLC (Programmable Logic Controller)
- Instalasi dan Pengkabelan Listrik
- Inspeksi K3 (Keselamatan dan Kesehatan Kerja)
- Penyolderan dan Perakitan Komponen Elektronik
- Troubleshooting Dasar Sistem Kelistrikan

SERTIFIKASI & PELATIHAN

- | | |
|---|------|
| • Pelatihan PLC Sertifikat – Universitas Semarang | 2026 |

| • TOEFL (Diagnostic Test) Sertifikat – Universitas Semarang | 2023 |

PENGALAMAN KERJA

Asisten Ahli K3 (Magang) | PT Jasa Teknik Indonesia Agustus 2024 - Desember 2024

- Mengikuti 7 kegiatan inspeksi dan riksa uji selama masa magang seperti instalasi listrik, penangkal petir, PTP, PAA, serta Fire Alarm guna memastikan kelayakan operasional dan kepatuhan terhadap standar K3.
- Mengidentifikasi potensi bahaya serta memastikan penerapan prosedur keselamatan kerja di area operasional.
- Menyusun laporan hasil pemeriksaan dan pengujian (riksa uji) secara tepat dan sistematis.

Magang Sistem Pembangkit Listrik | PPSDM MIGAS Maret 2025

- Mempelajari pengoperasian dan pemeliharaan mesin diesel generator sebagai bagian dari sistem pembangkit listrik.
- Memantau parameter operasional meliputi suhu, tekanan, dan sistem pendingin untuk memastikan performa mesin stabil.
- Membantu inspeksi serta pemeliharaan peralatan listrik di area power plant guna menjaga keandalan operasional.

Asisten Pemeliharaan Listrik (Magang) | PLN ULP SEMARANG SELATAN Mei 2025 - Juli 2025

- Berkontribusi dalam pemeliharaan jaringan tegangan rendah hingga menengah dan pengamatan gardu distribusi.
- Keterlibatan dalam audit internal K3 dan penyusunan SOP pekerjaan kelistrikan memberikan pemahaman komprehensif mengenai sistem manajemen keselamatan kerja.

PENDIDIKAN

Universitas Semarang

2022 - 2026

Sarjana Teknik Elektro | IPK : 3.54 / 4.00 [SKL & Transkrip Nilai](#)

- **Tugas Akhir** (Rancang Bangun Sistem Manajemen Baterai (BMS) Pada Kendaraan Listrik Roda Tiga berbasis BLDC 36 V 350 Watt).
- **Mata Kuliah Relevan** : Otomasi, Sistem Pembangkit Listrik, Sistem Berbasis IoT, Scada, Perencanaan Sistem tenaga listrik, Pemodelan & Simulasi Sistem, Sistem Energi Baru dan Terbarukan.

PENGALAMAN ORGANISASI

Anggota Fungsionaris | BEM Universitas Semarang

2024

- Mendukung pelaksanaan program kerja organisasi melalui koordinasi kegiatan divisi.
- Mengelola media sosial organisasi meliputi perencanaan, pembuatan, dan publikasi konten informasi.
- Berkontribusi dalam penyebaran informasi dan peningkatan engagement media organisasi.

KETERAMPILAN

Hard Skills

- Microsoft Office (Ms. Word, Ms. Excel, Ms. Power point),
- Dasar AutoCAD, CX-Programmer, Arduino IDE, Matlab, Google Sheets, Canva

Soft Skills

- Pemecahan Masalah, Kerja Tim, Komunikasi, Manajemen Waktu, Kepemimpinan

Bahasa

- Indonesia (Native) Inggris (Basic Working Proficiency)

ARYA SATYA YUDHA MAHESWARA

maheswarayudha20gmail.com | (+62) 852-3091-3294 | [Portfolio](#) | Semarang, Indonesia

Bachelor's degree in Electrical Engineering with a concentration in Electronics and Instrumentation, with understanding of electrical systems, reading electrical diagrams, as well as equipment monitoring and maintenance. Has internship experience in inspection, equipment maintenance, and electrical system monitoring. Accustomed to working meticulously and systematically, and able to work well in a team. Interested in the fields of Renewable Energy (RE), control systems, and electrical technology development.

TECHNICAL COMPETENCIES

- Basic Instrumentation & System Monitoring
- Basic PLC (Programmable Logic Controller)
- Electrical Installation & Wiring
- Occupational Safety Inspection
- Soldering & Electronic Assembly
- Basic Electrical Troubleshooting

CERTIFICATION & TRAINING

- **Occupational Safety (AK3U)** [Certificate](#) – Nagan Training **2026**
- **PLC Training** [Certificate](#) – Semarang University **2026**
- **AutoCAD Training** [Certificate](#) – Semarang University **2026**
- **TOEFL (Diagnostic Test)** [Certificate](#) – Semarang University **2023**

WORK EXPERIENCE

HSE Intern | PT Jasa Teknik Indonesia Aug 2024 – Dec 2024

- Participated in 7 inspection and testing activities during the internship, including electrical installations, lightning protection systems, PTP, PAA, and fire alarm systems, to ensure operational safety and compliance with occupational safety and health standards.
- Identified potential hazards and ensured the implementation of workplace safety procedures in operational areas.
- Prepared inspection and testing reports accurately and systematically.

Electrical Maintenance Intern | PPSDM MIGAS March 2025

- Learning the operation and maintenance of diesel generator sets as part of the power generation system.
- Monitoring operational parameters, including temperature, pressure, and the cooling system, to ensure stable engine performance.
- Assisting with the inspection and maintenance of electrical equipment in the power plant to ensure operational reliability.

Electrical Maintenance Intern | PT PLN UP2D Jateng & DIY May 2025 – July 2025

- Contributed to the design and modification of the Feeder Overcurrent Relay (MICOM P142) keypad to enhance the reliability of the protection system.
- Participated in UPS battery inspections and charging to gain an understanding of backup power supply system maintenance.
- Participated in equipment inspections and maintenance at the substation to ensure operational readiness.

EDUCATION

Semarang University [Graduation Certificate & Transcript](#)

2022 - 2026

Bachelor of Electrical Engineering | GPA: 3.64 / 4.00

- **Final Project:** (Design and Development of a Microcontroller-Based Battery Speed and Voltage Monitoring System for a Three-Wheeled Electric Motorcycle).
- **Relevant Courses:** Automation, Fuzzy Logic Control, IoT Systems, SCADA, Microcontroller Applications, System Modeling & Simulation, Renewable Energy Systems, and Occupational Safety & Environmental Health (K3LH).

ORGANIZATIONAL EXPERIENCE

Media and Information Division Member | Dewan Mahasiswa Universitas Semarang

2024

- Supported the implementation of organizational work programs through division activity coordination.
- Managed the organization's social media, including content planning, creation, and publication.
- Contributed to information dissemination and improving organizational media engagement.

Head of Religious Division IMADU Semarang

2024

- Coordinate 3 staff members in carrying out the religious affairs division's work program.
- Plan and manage religious activities in a structured and timely manner.
- Lead the implementation of activities and ensure that programs run smoothly and meet their targets.

SKILLS

Hard Skills

- Microsoft Office (Ms. Word, Ms. Excel, Ms. PowerPoint), Google Sheets, Canva, CapCut
- Basic in AutoCAD, CX-Programmer, Arduino IDE, and KiCad

Soft Skills

- Problem Solving, Teamwork, Communication, Time Management, Leadership

Languages

- Indonesian (Native) Inggris (Basic)

ARYA SATYA YUDHA MAHESWARA

maheswarayudha20gmail.com | (+62) 852-3091-3294 | [Portfolio](#) | Semarang, Indonesia

Bachelor of Electrical Engineering with hands-on experience in electrical maintenance, power distribution systems, utility equipment operation, and preventive maintenance in a textile manufacturing environment. Currently working as an Electrical Maintenance Technician at PT Eclat Textile International, responsible for supporting the operation and maintenance of electrical systems, boilers, air compressors, and utility equipment to ensure continuous production. Experienced through internships in power generation, electrical protection systems, and industrial safety. Highly adaptable, eager to learn, and motivated to build a long-term career in the mining and heavy industry sectors.

TECHNICAL COMPETENCIES

- Preventive & Corrective Maintenance
- Electrical Maintenance
- Electrical Troubleshooting
- Basic PLC (Programmable Logic Controller)
- Electrical Installation & Wiring
- Microsoft Office
- Power Distribution System
- Industrial Electrical Installation
- Boiler Operation (Basic)
- Air Compressor & Air Dryer Operation
- Motor Control & Protection
- Occupational Safety (HSE)

CERTIFICATION & TRAINING

Occupational Safety (AK3U) Certificate – Nagan Training	2026
PLC Training Certificate – Semarang University	2026
AutoCAD Training Certificate – Semarang University	2026
TOEFL (Diagnostic Test) Certificate – Semarang University	2023

WORK EXPERIENCE

Electrical Maintenance Technician | PT Eclat Textile International

July 2026 – Present

- Operate and monitor boilers, air compressors, and air dryers to support continuous production.
- Perform boiler start-up and shutdown procedures in accordance with SOPs.
- Monitor compressor systems to maintain stable compressed air for production equipment.
- Assist in preventive and corrective maintenance of electrical panels, motors, pumps, and industrial machinery.
- Support electrical troubleshooting to minimize equipment downtime.
- Conduct routine inspections of electrical and utility systems to ensure equipment reliability.
- Monitor power distribution systems from transformers to low-voltage distribution panels.
- Apply Health, Safety, and Environment (HSE) standards during maintenance activities.
- Coordinate with maintenance and production teams to support efficient plant operations.

HSE Intern | PT Jasa Teknik Indonesia

Aug 2024 – Dec 2024

- Participated in 7 inspection and testing activities during the internship, including electrical installations, lightning protection systems, PTP, PAA, and fire alarm systems, to ensure operational safety and compliance with occupational safety and health standards.
- Identified potential hazards and ensured the implementation of workplace safety procedures in operational areas.
- Prepared inspection and testing reports accurately and systematically.

Electrical Maintenance Intern | PPSDM MIGAS

March 2025

- Learning the operation and maintenance of diesel generator sets as part of the power generation system.
- Monitoring operational parameters, including temperature, pressure, and the cooling system, to ensure stable engine performance.
- Assisting with the inspection and maintenance of electrical equipment in the power plant to ensure operational reliability.

Electrical Maintenance Intern | PT PLN UP2D Jateng & DIY

May 2025 – July 2025

- Contributed to the design and modification of the Feeder Overcurrent Relay (MICOM P142) keypad to enhance the reliability of the protection system.
- Participated in UPS battery inspections and charging to gain an understanding of backup power supply system maintenance.
- Participated in equipment inspections and maintenance at the substation to ensure operational readiness.
